

## The Company

3Lines is a Venture Capital company based out of Denver, Colorado, which raises capital from high net-worth individuals, family offices and institutions and invests the capital, globally, in early stage companies. Currently, 3Lines is raising a global venture capital fund of \$50M.

## Strategy and Principles:

### Innovation and Disruption

3Lines sources, evaluates and invests in highly innovative and disruptive early stage startups with a niche market focus which can scale up with a sub-linear capital requirement. Starting with the sourcing stage, 3Lines invests extensive time and energy to conduct a thorough market assessment for each and every opportunity.

### Diversification and Risk Mitigation

3Lines follows an investment diversification strategy based on geography, technology, market and customer segments. A detailed due-diligence(research) process combined with financial forecast over five years along six financial dimensions are at the core of 3Lines risk mitigation strategy.

### A 360 Degree Team

3Lines General Partners have a strong technology background who cover the three major aspects of venture capital world - raising and managing venture funds globally; building and successfully exiting several early stage startup companies and transformation and growth in multi-billion dollar global corporations.

## By The Numbers

**100+** Investor Partners

**500+** Deal Flow

**17** Early Stage Investments

**1** Exit, **4** Early Acquisition Offers

**4** Open Innovation Partners

**\$10M** Under Management

## Unique Value Proposition:

3Lines' unique value proposition firmly rests on its ability to enable a low barrier to entry for tech-savvy investors to participate in and gain from investment in a global venture fund for non-linear wealth creation. 3Lines is building a global money and mind network.
