

## The Company

3Lines is an early stage software technology fund focused on three disruptive trends 1) Future of Work 2) AI Enabled Enterprises 3) Industry 4.0. We invest in exceptional founders and companies both in the USA and India. Currently, 3Lines is raising a venture capital fund of **\$50M**.

## Strategy and Principles:

### Innovation and Disruption

3Lines sources, evaluates and invests in highly innovative and disruptive early stage startups with a niche market focus which can scale up with a sub-linear capital requirement. Starting with the sourcing stage, 3Lines invests extensive time and energy to conduct a thorough market assessment for each and every opportunity.

### Diversification and Risk Mitigation

3Lines follows an investment diversification strategy based on geography, and technology. A detailed due-diligence(research) process combined with financial forecast over five years along six financial dimensions are at the core of 3Lines risk mitigation strategy.

### A 360 Degree Team

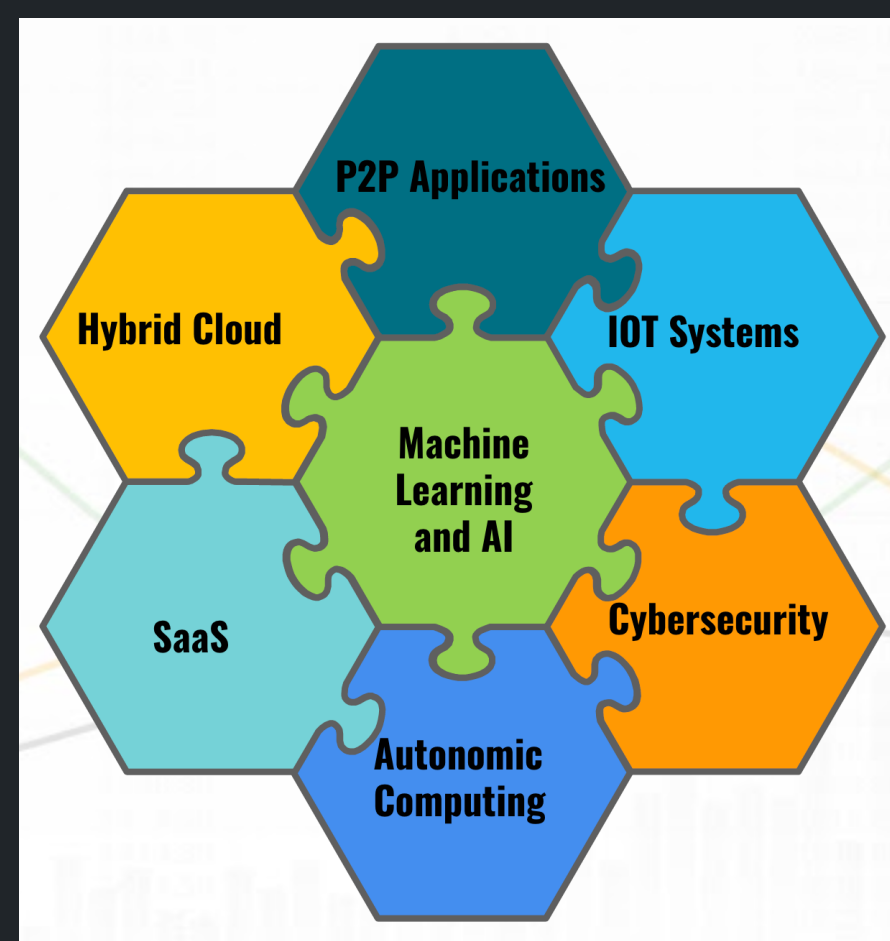

3Lines General Partners have a strong technology background which covers the three major aspects of venture capital - raising and managing venture funds globally; building and successfully exiting several early stage startup companies and transformation and growth in multi-billion dollar global corporations.

## By The Numbers

**1000+** DealFlow

**100+** Investor Partners

**18** Early Stage Investments
